

PLAN TO MOVE PARIS' LATIN QUARTER LAID

(By Associated Press)
PARIS, July 8.—A long discussed project for the transfer of the Latin quarter of Paris from the old Latin quarter to the outskirts of Paris on space made vacant by the demolition of the wall of Paris, appears to be on the way to realization.

The city of Paris will sell about 20 acres of land for the building of a students' city, including lodgings, recreation grounds and gymnasium. The University of Paris will undertake the construction of the necessary buildings, toward which one philanthropist has already contributed 10,000,000 francs.

It is not expected that this will greatly change the aspect of the characteristics of the Latin quarter, but it will provide accommodations for many foreign students who, unable to find lodgings, are practically excluded from the university. The secretary of the Students' association attributes to lack of lodgings the fact that the number of students matriculated at the university fell from 11,000 in 1920 to 8,000 this year.

MANY DIE FROM DREADED FEVER IN NORTH PERU

(By Associated Press)
LIMA, Peru, July 8.—Nearly 1000 deaths occurred from yellow fever during the last nine months in the departments of Lambayeque and La Libertad, in northern Peru, according to statements published here attributed to Doctor Henry Hanson, an American physician, who is in charge of the sanitation campaign directed against the fever by the Peruvian government and the Rockefeller Foundation.

The Rockefeller Foundation contributed \$20,000 to fight the epidemic which is now reported to be decreasing as a result of the campaign and the approach of the winter season. It was estimated there were about 10,000 cases in the affected area. The feature of the campaign has been the war against the mosquito, the closing of water containers and stagnant pools in which mosquitos breed.

Doctor Hanson's staff is composed of three supervising inspectors, five Peruvian physicians and 100 inspectors. It is believed the affected districts will be entirely rid of the fever by the end of the year.

CLAIM SITUATION AT TAMPICO WILL NOT EMBROIL U. S.

(By Associated Press)
MEXICO CITY, July 8.—Official assurance was given in statements to newspapers today that the Tampico situation does not contain elements of danger to the peaceful relations between the United States and Mexico.

Additional federal troops have been dispatched to the region of Tampico by the Mexican government for the announced purpose of "giving guarantees to nationals and foreigners."

MEETING AS CALLED BY DE VALERA IS NOW UNDER WAY

(Continued from Page One)
viewed as giving little occasion for optimism. This view was based largely on the belief that De Valera adhered unalterably to his demand for establishment of the Irish republic.

General MacReady, military commander of Ireland, participated in the conference of De Valera and representatives of the southern Unionists. His coming created belief among those following the conference that a truce will be arranged tonight.

The Irish Bulletin, official organ of the Sinn Fein, in a special edition tonight states that De Valera, Irish republican leader, informed those at the Mansion house conference of the proposed reply to Premier Lloyd George's proposal for a conference. It is expected here that a truce to start Monday, will be announced tomorrow, the 9th.

The ideal man, it seems, is always married to some other woman.

PERSONAL

HERBERT N. WITT, of Virginia City, is in Tonopah on a business mission.

C. H. EATON and daughters, of Reno, are visiting in Tonopah.

J. F. WILSON, of Reno, is registered at the Mispah.

D. H. INGALLS returned from San Francisco this morning.

L. W. KNOWLES, vice-president of the Tonopah Banking Corporation, left this morning for Reno.

J. D. HUMPHREY, stockraiser and director of the Tonopah Banking Corporation after several days spent on the ranges inspecting stock, returned to Reno today.

JERRY LUCY left today for the coast.

HARRY MOORE, superintendent of the Rescue-Eula, was an outgoing passenger this morning for San Francisco.

MRS. J. H. MASHBURN was on arrival this morning from Sodaville, where the family now makes its home.

ETHE FOX, the Arrowhead mine manager, returned from San Francisco this morning.

MISS MARGARET KENNEDY returned from Reno today, where she had been visiting for the past month.

GEORGE WINGFIELD returned from Reno on today's northbound train.

J. J. KENNEY, who has been at his fruit ranch at Paradise, California for the past month, returned to Tonopah Wednesday evening.

A. O. VELLOR, after a month's journey at Chico and San Francisco, has returned to Tonopah.

JOHN G. KIRCHEN was a passenger for Salt Lake City yesterday.

A. H. KEENAN and wife are expected home this evening after a month's auto touring in northern and central California.

LIVE BABY USED IN EXPERIMENTAL SCHOOL STUDIES

(By Associated Press)
FORT COLLINS, Col., July 8.—Six girls students of the domestic science department of the Colorado State Agricultural college here have a real live baby girl, named Edith, for "experimental" work in their laboratory courses, the baby being part of the equipment in the domestic science department.

Baby Edith, a few weeks ago, was sick, fretful and a forlorn bit of humanity. Her mother had exhausted her knowledge of babies without success when Miss Inga K. Allison, a charge of the domestic science department, offered to take Baby Edith for six weeks and try out scientific methods of baby care.

Instead of being fed only when he cries, Baby Edith gets seven ounces of carefully prepared food every three hours. She is thriving on the scientific treatment and feeding.

There are neither potatoes nor vegetables for the workers. In the summer no one has bothered to store them. People are starving, cattle are starving. In the farm there are 32 persons; of these six are officials.

The old program of the bolshevik government called for an increase in the number of these "model" farms. The new program by which the peasants are given nine years' tenure of their land, practically does away with them.

No less frank were more recent admissions in the Moscow newspapers about the economic state of Russian factories, some of which were shown to be producing less than 5 per cent of what they produced before the war.

Notary Public.

AMUSEMENTS

CONSTANCE TALMADGE
AT THE BUTLER TODAY

Constance Talmadge in "Mama's Affair," the Harvard University play, will be the feature at the Butler today. The sparkling lines which gave the play such vogue are preserved in the titles while the screen version, perhaps because the camera gives wider scope to the scenes of merriment, is even more replete with laughs than the play. It is a fitting starring vehicle for the dainty comedienne. Miss Talmadge is said not only to repeat her former triumphs but to ascend to new heights in her interpretation of the role of Eve. Added to the program will be a two-act comedy, "Hey Rubie."

Monday, Hobart Bosworth, in a sponsored special production, "Below the Surface."

RED PAPERS SAY
MODEL FARMS ARE
BUT ROSY DREAMS

(By Associated Press)
REVAL, Estonia, July 8.—Those who have the idea that bolshevik newspapers printed in Russia say only rosy things about the country could quickly be disillusioned by perusal of the papers themselves. During the past four months, the principal Moscow and Petrograd papers have been startlingly frank about some of the conditions that communism has produced.

The Moscow Economic Life not long ago wrote the following description of conditions on one of the communist "model" farms:

"The farm presented a picture of complete desolation. For years there have been no repairs. Windows are broken, walls are falling in, and some of the buildings are in ruins. Workers live in terrible, dirty rooms, black from smoke. In one of the rooms there lives a calf, placed there by the foreman despite protests of women tenants."

There are neither potatoes nor vegetables for the workers. In the summer no one has bothered to store them. People are starving, cattle are starving. In the farm there are 32 persons; of these six are officials."

The old program of the bolshevik government called for an increase in the number of these "model" farms. The new program by which the peasants are given nine years' tenure of their land, practically does away with them.

No less frank were more recent admissions in the Moscow newspapers about the economic state of Russian factories, some of which were shown to be producing less than 5 per cent of what they produced before the war.

SARDINIA TRIES TO APE IRELAND BUT FALLS DOWN

(By Associated Press)
ROME, July 8.—Sardinia is fond of calling herself the "Ireland" of Italy and of threatening to separate from the mother country, whom it accuses of having always behaved in the gallant little island in a somewhat stepmotherly way. However, the recent visit of King Victor Emmanuel to his Sardinian subjects was the occasion for an outburst of loyalty which will oblige the instigators of separation to defer their hopes. Even the Socialists joined in welcoming the king.

Sardinia needs roads and railways to bring her splendid harvests of grain and her other agricultural products to the mainland, and above all government help for reclaiming the unhealthy districts and systematically and scientifically combating the terrible scourge of malaria which renders many of her most productive provinces almost uninhabitable for several months of the year.

START CAMPAIGN TO
STOP "JAYWALKING"

(By Associated Press)
GLOBE, Ariz., July 8.—Reckless walking in a downtown district here in future is to be an offense the same as reckless driving. The police have inaugurated a campaign to eliminate "jaywalking" in the business section of the city. Broad green lines have been painted on the streets at the corners indicating the proper method of crossing, and persons ignoring the lines will be tagged much as an automobile is tagged when it has been left standing in the street in violation of traffic ordinance. The tag will invite the wearer to visit the police judge.

NO WATER FOR SWIMMING POOL

Many inquiries are made as to why the natatorium at the Victor park is not open to the children for bathing purposes these warm days. The answer is that there is no surplus water being pumped out of the Victor shaft. The pumps are run a few hours daily and this water is pumped to the Extension mill and there used for milling purposes. As soon as another shift is put on at the Victor water may be had for the pool when it will be opened under the charge of a competent person and none but children will be allowed the use of the swimming tank. The natatorium was built for the children of Tonopah in order that they might have a free bathing resort, provided they comply with the rules and regulations of the organization. When water is available the pool will be opened for children only.

FALLING OFF IN
WEHAT CROP SEEN

(By Associated Press)
WASHINGTON, D. C., July 8.—A reduction of 21,000,000 bushels of wheat during June, prospects of a record production of corn, and 4,000,000 pounds less tobacco is shown in the government's monthly report.

CONDOR PURSUES
PLANE 700 MILES

(By Associated Press)
LIMA, Peru, July 8.—A condor, a huge bird which inhabits the Andes mountains, pursued an airplane in which Signor Rolando, an Italian aviator, recently flew from Lima to Cuzco. The Italian made the flight of 700 miles in 3 hours and 40 minutes.

When the aviator reached the ancient capital of the Incas, the big bird was still accompanying the airplane, apparently preparing to attack it.

DIVORCE GRANTED

Judge Averill, of the Fifth judicial district court, on July 1 granted a divorce to Meta P. Hoffman from John Henry Hoffman, on the grounds of failure to provide.

Russia, it is reported, is threatened with famine. It is believed, however, that Lenine and Trotsky will not be among the starving.
